

B. E. P. Q. 512

TITLE 7--AGRICULTURE

CHAPTER III--BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

SEC. 301.64-5c--ADMINISTRATIVE INSTRUCTIONS--
MODIFYING THE RESTRICTIONS OF THE
MEXICAN FRUITFLY QUARANTINE BY EXTENDING
THE HARVESTING SEASON ON VALENCIA ORANGES
FROM APRIL 30 TO MAY 31, 1941

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by the third proviso of Section 301.64, Chapter III, Title 7, Code of Federal Regulations [Notice of Quarantine No. 64], it having been determined by me that a modification may be safely made without increasing the risk of spread of the Mexican fruitfly, Section 301.64-5(a) [subsection (a) of regulation 5 supplemental to this quarantine] is hereby modified to extend the harvesting season for Valencia oranges for the Texas Counties of Brooks, Willacy, Cameron, and Hidalgo to the close of May 31 for the year 1941, provided conditions of infestation do not necessitate an earlier closing date.

The host-free period for Valencia oranges, under this modification, will begin June 1 and continue to August 31, 1941, inclusive.

This modification does not affect or alter the harvesting season for grapefruit which closes, under the conditions of the above regulation, on April 30.

Done at Washington, D. C., this 30th day of December 1940.

LEE A. STRONG,

Chief, Bureau of Entomology and Plant Quarantine.
